TAKE OFF PROJECT COMPETITION

All students from universities (FH, TU etc.) or secondary education schools (Gymnasien, HTLs etc.) who have conducted (2016/2017), or are still conducting, a space-related project are invited to submit their project.

All submissions will be evaluated by an expert jury and the five best projects will have the opportunity to present their project to an international community at the exhibition during the Austrian Space Cooperation Days. The 2 day conference will allow ample possibilities to contact experts and representatives from the space industry and is therefore an excellent platform for young students.

How can you participate?

- Submit a description of your project. Whether you submit your project as a short video clip (.mpg, .mov, .avi etc.) or rather as a written report (word, pdf) is totally up to you.
- Your submission should definitely contain the following:
 - Description of the project
 - Key-information about the project (When did it start? How long did it run? Who was involved? etc.)
 - What were your objectives? What is the impact of your project?
 - Describe your team
- Your submission should be either in German or in English
- The five highest rated submissions will be invited to present their project at the exhibition. In addition, those in first, second and third place will be awarded €500 / €300 / €200 respectively.
- Further information: austrianspacedays.at

Send your submission to space-ideen@fhwn.ac.at

Deadline for your submission is the 14.05.2018

The selected projects will be informed at the latest by 25.05.2018
