

The European Association for Astronomy Education (EAAE) invites students from European schools to participate in the XV edition of the astronomy contest “Catch a Star”.

Sponsored by ESO

- Write a report about an astronomical topic of your own choice (this could be a specific astronomical object, phenomenon, observation, scientific problem, theory, etc).
- The deadline to send the projects is February 28, 2022.
- The final conference and the award ceremony will be on March 20, 2022.
- Groups of a maximum of 4 participants.
- The teams that present the best projects will receive special prizes from ESO.

Visit our webpage to know the conditions for student participation, the project requirements, the prizes and all important dates for the competition.
