RESIDENCY EXPERTS

Christophe De Jaeger

Founding Director
GLUON

WEBSITE | 

Art historian and curator specializing in contemporary art and collaborative practices between art and research. As a curator and cultural manager, he increasingly looked for opportunities to relate artists to the important ecological, social, political, and scientific challenges of our time. Making links between artists and researchers leads to exhibitions, discussions, educative workshops, and new productions that make artists and citizens reflect upon our position in the universe and our shared responsibility for the world in general.

De Jaeger is the founding director of GLUON, a Brussels-based platform for Art, Science and Technology in Brussels.

Davio Larnout

CEO
Radix

WEBSITE | 

Davio Larnout is CEO at Radix, a Belgium-based Artificial Intelligence solution provider. After working at PwC Advisory in Brussels as a Senior Technology Consultant, he decided to take a leap and founded Radix with co-founder Laurent in 2018. In just over 6 years, Davio has grown Radix from a team of 3 to a team of 60. Radix counts hundreds of AI projects with proven impact. As CEO, Davio's goal is to enable Radix to achieve maximum impact and improve as many lives as possible.

Rob Heyman

Managing Coordinator
Knowledge Centre for Data & AI
Imec- SMIT, Vrije Universiteit
Brussels

WEBSITE 

The more digitalised we live, the more we get personalised decisions based on our information. My goal is to uncover how these things work and get people to understand what happens with data. I find it curious that so little is known about data in the age of big data. My method consists of uncovering the hidden life of data by mapping these processes in easy-to-digest texts, scenarios and visuals. We then use co-creation sessions to map current practices with end-users expectations, regulators or innovators. My methods include Privacy Impact Assessments, data mapping, and privacy literacy surveys.

I finished my PhD at the VUB in 2016 on the commodification of personal information on Facebook and the effect this had on online communication. Before that, I obtained a master's in Communication Sciences and Philosophy. And in 2017, I learned to become a stakeholder manager at Levuur. Next to learning, I like to teach and have given lectures and courses at the ULB and VUB on online marketing, research methods, privacy and challenges of the ongoing digitalisation.

Eline Kindt

Policy Officer
Liga of Human Rights

WEBSITE 

Eline studied law in Ghent and Utrecht and then obtained a PhD in law from Ghent University. Then she decided to work as a research associate at Public International Law & Policy Group, an international pro bono law firm. Eline worked as a doctoral researcher at the Human Rights Centre at Ghent University before joining the League. There, she supports substantive policy.
