

## Astrophotography Made Easy

Thursday, March 8, 2012 / Ars Electronica Center

(Linz, March 6, 2012) At astrophotographer Dietmar Hager's workshop this Thursday, March 8 you can learn to use a webcam and free software to take beautiful shots of the Moon and the planets of our Solar System. All you need to bring with you is a laptop; the images for processing will be provided by Dietmar Hager.

### Dietmar Hager

Dietmar Hager is a doctor, an astrophotographer and a Fellow of the Royal Astronomical Society. He has been involved in astrophotography for over 20 years, during which time his images have been published in professional journals and textbooks. In early 2011, he was named the Ars Electronica Center's astronomical counselor.
