

## Deep Space LIVE: Anatomy for All. The Rivalry of the Organs

Thursday, April 24, 2014 / 8-9 PM / Ars Electronica Center

(Linz, April 17, 2014) The internal organs of the human body take center stage at the next “Deep Space LIVE: Anatomy for All” presentation on Thursday, April 24, 2014 at 8 PM. Three chief physicians at Linz General Hospital—Dr. Franz Fellner, head of the Department of Radiology, Dr. Bernd Lamprecht, director of pulmonology (diseases of the respiratory tract), and head surgeon Dr. Andreas Shamiyeh—will compare virtual and real views of the lungs and abdomen, and show that modern technologies even make it possible to take a virtual journey through the bronchial tubes and the large intestine.

### Deep Space LIVE

The Ars Electronica Center is now hosting a Deep Space LIVE event every Thursday (except holidays) at 8 PM. Each presentation will feature ultra-high-definition imagery in 16x9-meter format and will be accompanied by expert commentary, entertaining stand-up repartee, and musical improvisation. Whether great works from the history of art, space travel, journeys of discovery in the Nanoworld, or a live concert is what you’ve come to behold, Deep Space LIVE stands for enlightening entertainment amidst breathtaking worlds of imagery. Admission is €2. Holders of a valid Museum ticket are admitted free of charge.
