

## Deep Space LIVE: All about Linz's New Medical School

Thursday, December 4, 2014 / 8-9 PM / Ars Electronica Center

(Linz, December 1, 2014) Dr. Franz Fellner, chairman of the Department of Radiology at Linz General Hospital and president of the Upper Austrian Medical Association, will talk about the University of Linz's new School of Medicine at the next Deep Space LIVE this coming Thursday. He'll also offer fascinating insights into virtual human anatomy that's made possible by the innovative integration of high-tech imaging procedures. The Ars Electronica Futurelab has utilized these techniques to generate 3-D visualizations that enable users to go on a virtual journey through the human body.

### Deep Space LIVE

The Ars Electronica Center is now hosting a Deep Space LIVE event every Thursday (except holidays) at 8 PM. Each presentation will feature ultra-high-definition imagery in 16x9-meter format and will be accompanied by expert commentary, entertaining stand-up repartee, and musical improvisation. Whether great works from the history of art, space travel, journeys of discovery in the Nanoworld, or a live concert is what you've come to behold, Deep Space LIVE stands for enlightening entertainment amidst breathtaking worlds of imagery. Admission is €2. Holders of a valid Museum ticket are admitted free of charge.

### All about Franz Fellner

Dr. Franz Fellner heads the Department of Radiology at Linz General Hospital. For over 20 years, he has intensively studied the possibilities of using imaging procedures to explain human anatomy and the functions of the human body to the general public. Since the 1990s, he has spoken to audiences worldwide and organized continuing professional education presentations. He has served as president of the Upper Austrian Medical Association since mid-September 2014.
