

Digital Incubator for Museums:

Open Call for Digital Transformation in Art, Culture and Science

(Linz, 14.12.2021) DOORS stands for “Digital Incubator for Museums.” This joint initiative of Ars Electronica, MUSEUM BOOSTER and Ecsite supports small and medium-size museums in matters related to the digital transformation. DOORS opens up access to knowledge, resources and specialist expertise. Its incubation and competence-building program is helping to narrow the digitalization gap in Europe.

Starting now and until February 13, 2022, museums, science centers, botanical gardens, archives and libraries can submit digital pilot projects for launching their long-term digital transformation. You can find details on the requirements for submissions here:

<https://ars.electronica.art/doors/en/>.
