

Christmas vacation program It's snowing adventures at the Ars Electronica Center

(Linz, Dec. 20, 2022) When all the presents have been unwrapped and tried out, vacation days can get pretty long. A visit to the Ars Electronica Center provides plenty of variety, especially for kids. This year's vacation program invites them to marvel, experience and experiment. For art lovers, there's also a special offer: Leonardo da Vinci's Mona Lisa, in high-resolution in deep space.

The most important at a glance

- 4 vacation workshops for children
- The Mona Lisa in Deep Space
- Opening hours at the turn of the year

Circus Robotics

Workshop for 9- to 11-year-olds

Wednesday, December 28, 2022, 10:30 - 13:00

The Machine Learning Studio is home to a wide variety of machines. Young visitors will get to know and control them and can also build one themselves. Manage free for the robots!

A lot going on in the moss

Workshop for 6- to 8-year-olds

Friday, 30 December 2022, 10:30 - 13:00

Threadworms, larvae, bacteria, as well as slipper, ciliated, trumpet and tardigrades cavort in the moss. With a microscope and a little luck, you can observe these tiny creatures.

Ding Dong

Workshop for 9- to 11-year-olds

Tuesday, January 3, 2023, 10:30 a.m. - 1 p.m.

For everyone who enjoys experimenting with sounds and tones: In the Open Soundstudio, even non-instruments resound. Please bring your own "favorite thing" so it can be made to sound.

Machine 9x smart

Workshop for 6- to 8-year-olds

Thursday, January 5, 2023, 10:30 a.m. - 1:00 p.m.

How smart can computers be? What does "artificial intelligence" actually mean? Visitors* find out how smart machines really are - compared to human intelligence.
