

FOUNDING LAB SUMMER SCHOOL 2023.

Terms and conditions for Students

Linz, July 14, 2023

1. The Participant's Rights and Obligations

- 1.1. Once the participant has been officially accepted to the program and has officially confirmed participation through the Onboarding Form, participants have the right to take part in the **IDSA x Ars Electronica FOUNDING LAB Summer School program** under the following conditions:
- Ars Electronica will organize and pay the participants' arrival and departure, covering your **travel costs** in accordance with the following conditions:
 - Only travel via public transportation will be covered.
 - Air travel will be booked and covered in house but keep in mind that only economy class airfare will be booked. If you travel by train, only the costs for a 2nd class ticket will be covered.
 - While attending and participating in the evening, program participants will stay at the Julius-Raab-Heim Linz, Ars Electronica will bear all **accommodation costs** directly from the Julius-Raab-Heim Linz. Program participants are not subject to paying for accommodation at **Julius-Raab-Heim Linz**. Should individual participants require other accommodations, the costs will not be covered and must be paid for by the participants themselves.
 - During the Summer School, Ars Electronica will provide **meals** for all participants on a daily basis as follows:
 - Breakfast (at Julius-Raab-Heim Linz),
 - Lunch as part of the Summer School,
 - Dinner, or alternatively food vouchers,
 - Snacks and refreshments as part of the Summer School program.
 - Students are expected to be onsite in Linz for the entire duration of the Summer School (August 23 – September 13, 2023).
 - Students will work on a Summer School project to be presented in the frame of the Ars Electronica Festival. The project can be developed individually or in groups.
 - Ars Electronica will provide participants with travel **health insurance** that provides sufficient coverage for the duration of the program period.

1.2. Apart from this, there is no contractual relationship of any kind between the program participants and Ars Electronica, and the participants have no further claims against Ars Electronica. Program participants are solely responsible for all matters beyond Pt. 1. This means:

- Applying for an entry and residence visa is the participants' sole responsibility. Click here to learn more: <https://www.bmeia.gv.at/en/travel-stay/entry-and-residence-in-austria/entrance-and-residence/visa/>
- Ars Electronica does not assume any supervisory, custodial or welfare obligations towards the participants, not even minor-age participants. They are to travel at their own risk and responsibility.
- Minor-age participants may only take part in the program with the permission of a legal guardian.

2. Copyrights and Data Protection

The participant shall grant IDSA and Ars Electronica with the irrevocable right to use all documentation (i.e. video, audio, etc.) and/or information material about meetings associated with the FOUNDING LAB program, the presentation(s), workshops, and performance(s) without any restrictions in terms of time, place, or subject matter. This includes, but is not limited to, the right to use visual and audio recordings (including - but not limited to - interviews), text, and graphics relating to the work involved. This does not apply to the work itself.

IDSA and Ars Electronica retains the right to translate, edit, modify, shorten, reproduce and/or publish, distribute and distribute material for documentation, information and/or advertising purposes, both digitally (including – but not limited to – all currently known and future social media platforms, i.e., Facebook, Twitter, Flickr, and Instagram) as well as via print media and/or printed materials (i.e., program booklets and catalogues).

If the participant is depicted on documentation and/or information material, he/she agrees to the use of his/her image as described above.

Please note that information (including personal information) will be retained for an extended period, if the personal information is being processed exclusively for archiving purposes in the public interest, for scientific or historical research purposes, and/or statistical purposes. Deleting this information from IDSA and Ars Electronica archives is therefore not possible as it would contradict the purpose of retaining an archive.

The participant may object to use for media reporting once the contract has been concluded, whereby any objection of this kind must be submitted writing and will be effective in the future.

Personal data will be processed in accordance with provisions as outlined in the General Data Protection Regulation (GDPR) and the 2018 Data Protection Adaptation Act. Data protection and privacy policies are attached. By actively taking part in the FOUNDING LAB program, the participant agrees to accept the policies in regard to data protection and privacy.
